## ISSUE OF SOCIALISM

FEDERATION OF LABOR NOW CONFRONTED BY IT.

Typographical Union, United Brewery Workers, United Mineworkers and Sailors and Waterfront Workers Will Lead the Fight to Declare in Favor of Socialism—American Labor Union is a Socialist Body.

Washington, D. C., Nov. 8.—Organized labor throughout the country is looking forward with keen interest to the annual convention of the American Federation of Labor, which meets in San Francisco next week. It is no secret that there is considerable rivalry between the American Federation of Labor and the American Labor Union. The latter organization has given evidence of late that it is on the hunt for the scalp of the former, and now the American Federation intends, apparently, to hunt for scalps in the stronghold of the A. L. U. It is in the West that the American Labor Union is strongest, possibly because that there is in that part of the country a stronger leaning to socialism by union men. The A. L. U. is strongly influenced by socialism and has worked the Western field carefully. In this way it has come into possession of union bodies that the American Federation of Labor believes should belong to it.

Those at present in control of the policy of the federation are strongly opposed to all socialistic leanings. There is, on the other hand, a well-defined element among the rank and file that is outspoken in favor of industrialism and there are many who do not hesitate to predict that the question of socialism will be the rock on which the now powerful organization will split sooner or later. The split may be precipitated by the debates or resolutions at next week's convention or it may be delayed, but the opinion is expressed that decisive action must be taken at no distant date.

The views of the socialistic element are expressed in the following statements made today by the head of one of the strongest bodies affiliated with the A. F. of L. and who is himself a delegate to the San Francisco convention:

"Socialists will not be driven from the San Francisco convention. We shall continue our fight for industrialism, and I believe that the convention next week will mark the time when Samuel Gompers will change his attitude toward that policy. The rank and file of the labor movement today has been educated to the advantages of following out a policy of industrialism, and if the matter of an election of president of the movement were to be left to them there is no

doubt in my mind but that Gompers would be defeated."

Four of the largest organizations affiliated with the American Federation of Labor are following out the policy of industrialism, and with their strength and influence it is not impossible that they may succeed in changing the attitude of the present administration of the federation or as an alternative, gain control themselves or, failing this, secede from the big organization and start a new movement. The four organizations are those of the United Brotherhood of Typographical Union, the United Mineworkers of America, the International Longshoremen, Marine and Transport Workers' Associations.

## Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass of Fremont, N. C., writes. Only 50c at Tallman & Co.'s druggists.

## COMING EVENTS.

November 14—Annual meeting Oregon Miners' Association, Portland.  
 November 15-16—State Bar Association, Portland.  
 November 16-26—National Grange meeting, Portland.  
 November 15-18—National Irrigation Association, El Paso, Texas.  
 November 24—Thanksgiving in the United States, Porto Rico, Hawaii, Guam and the Philippines.  
 November 25-26—State convention county clerks and recorders, Portland.  
 December 13-15—Oregon Good Roads Association, Salem.

 June 1, 1905—Opening Lewis and Clark exposition.

## A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for burns, scalds, skin eruptions and piles. 25c at Tallman & Co.'s drug store.

## Golden Rule Store.

By mistake of the factory the Golden Rule Store has about three times as many golf gloves as were ordered. Rather than return them, it has been decided by a big reduction in price to close them out. You ought to see the 50c values they are offering for 25c, and the 75c values which go for 48c.

Th' only office th' seeks th' man is one th' ain't worth havin'.

## NO ADVERTISING WAGON.

Hillman Real Estate Firm of Seattle, Cannot Paint Sign on Wagons.

C. D. Hillman, the real estate dealer whose advertising wagon has been ordered from the street by the police, says he is going to fight the matter to the bitter end, says the Seattle Star.

The driver of his team was arrested yesterday by order of Sergeant Stuart, and the man manipulating the bagpipes was also taken into custody.

In an interview this morning Hillman said:

"It is nothing but a case of persecution and I will fight it to the end. There are several other advertising wagons on the street and they are not interfered with and I cannot see why I should be picked out to be persecuted. They might just as well order grocers and dry goods houses to take the signs off their delivery wagons as to make me stop advertising in a legitimate way."

## Smallest Locomotive for Japan.

One of the smallest locomotives built in this country has just been shipped by the Baldwin company to Japan to be used on a narrow gauge railroad along the coast of that country, known as the Atami Light railroad. The road is about 16 miles long and the cars have hitherto been pushed by coolies, whose labor the little engine is designed to displace. The locomotive weighs 5500 pounds. The diameter of the drivers is 20 inches and the cylinder has a stroke of 10 inches. The tank is of 50 gallons capacity and the engine burns soft coal. The gauge of the road on which the engine will run is about 24 inches, and the rails weigh about 10 pounds to the yard. One man is needed to operate the locomotive, which will haul six cars containing four passengers each. An ordinary locomotive weighs 100 tons or more and the rails weigh eighty to ninety pounds to the yard.

## Cheap Cattle in Crook.

Gus Prose sold last week to James Prose 80 head of stock cattle at \$10 per head. Calves were thrown in. So far as known this is the smallest price accepted for cattle in many years.—Prineville Review.

## Prof. T. B. Moss, M. H. D.

Magnetic wonder of the twentieth century. Diagnoses without questions or contact, and cures disease without medicine or knife; and teaches the science to others. Now located at 313 South Main Street

Call any time to investigate.

## WONDERFUL CURE OF SORE HANDS

By Cuticura After the Most Awful Suffering Ever Experienced.

## EIGHT DOCTORS

And Many Remedies Failed to do a Cent's Worth of Good.

"About five years ago I was troubled with sore hands, so sore that when I would put them in water the pain would very nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to do for fully three years, but could get no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings when I got up, to think I had to go to work and stand the pain for ten hours, and I often felt like giving up my position. Before I started to work mornings I would have to wrap every finger up separately, so as to try and keep them soft and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. But thanks to Cuticura, the greatest of all great skin cures. After doctoring for three years, and spending much money, a 50c. box of Cuticura Ointment ended all my sufferings. It's been two years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment."
